Certifications

- IBM Certified Developer - Cognos 10 BI Data Warehouses ▪ Cognitive Class – Jan'24 ([link](#))

Achievement

- Built and managed a 2,500+ member community across Discord, Telegram, and X (Twitter).
- Contributed to business opportunity identification and partnership development across early-stage Web3 projects.
- Hackathon Bounty Winner — Unfold 2023, recognized for successfully completing a competitive technical challenge.

Projects

GetNext — Full-Stack Web Platform | getnextin.mrig.tech

- Built and deployed a production-ready web platform with functional end-to-end user workflows.
- Tested critical user journeys, form validations, navigation flows and edge cases to identify functional issues.
- Debugged frontend and backend issues and iteratively improved reliability and user experience.
- Used Git/GitHub for version control and development workflow.

Hybrid Wallet — Web3 Wallet Application

- Built and tested a functional Web3 wallet application with transaction and wallet-management workflows.
- Tested input validation, transaction states, error handling and edge cases across core wallet flows.
- Debugged functional issues and verified expected application behavior across different **scenarios**.

itsmayank.me — Personal Portfolio

- Designed, developed and deployed a responsive personal portfolio website.
- Tested responsive layouts, navigation, forms, links and cross-device user flows.
- Identified and fixed UI/functional issues through iterative testing.
